

My Artist Statement

“I enjoy exploring my artwork with a keen eye. I work persistently to expose the complexities of each light, bright and dark hue, the various perspectives of layering and the details of artwork that I’m recreating. As I discover the beauty of art, I notice the color sets and moods to increase my artistic possibilities and put forth a piece that one can feel and connect with. I take importance in merging my peace and love for nature with my own thoughts and emotions. Art became my way of expressing my own emotions.”

~ Satwika Pitchala
